

YC Agro Ltd.

Introduction

YC Agro, a subsidiary of Shenzhen Yancheng Chemicals Co., Limited (YC Chem), is a registered company in United Kingdom specializing in developing, registering and distributing off-patent agrochemicals in Europe.

YC Chem, established in 1997, has been a leading manufacturer and distributor of agrochemicals in China. Our main business activities cover a wide range of insecticides, herbicides, fungicides and plant growth regulators. We have invested GLP dossiers for dozens of products, successfully registered more than 300 products worldwide and hold over 150 ICAMA registrations in China. In the next few years, we will invest GLP dossiers for some more important off-patent products and generic products. YC Chem laboratory is committed to technical innovation including development of manufacturing process, selection of optimal synthesis pathway, reduction of manufacture cost, formulation optimization and impurity synthesis.

Performed as the representative of YC Chem in Europe, YC Agro is responsible for registering and distributing the products manufactured by YC Chem. YC Agro could access the GLP dossiers owned by YC Chem to register any product in Europe. In return, YC Agro could share any registration resources with YC Chem. Some very important products such as Azoxystrobin, Fluroxypyr, Flufenacet, Metsulfuron, Metribuzin, Propyzamide, Epoxiconazole, Dicamba, Diflufenican, Trinexapac-ethyl, Quizalofop-p-ethyl and Tebuconazole have been included in our catalogue.

YC Agro will be the agent for some famous Chinese manufacturers to introduce, register and distribute their products in Europe. We are concluding this agreement with many Chinese manufacturers. Some other important products, such as Cyprodinil, Flazasulfuron, Lambda-cyhalothrin, Prothioconazole, Sulfosulfuron are adding into our catalogue.

We know EC regulation No.:1107/2009 and Directive 91/414 well. And also we have a good understanding of agricultural conditions and agrochemical application among European countries. In the last two decades, YC Chem has cooperated with our business partners to register over 30 products in UK, Ireland, France, Germany, Netherlands, Poland, Spain, Bulgaria, Romania and some other EU countries. Most of them have very good market. We also have established close cooperation with many registration consulting companies and GLP laboratories.

We are sincerely seeking the cooperation with forwarding distributors, wholesalers and retailers, who could work with us to register new products, promote brands and share achievements. We are also seeking the cooperation with forwarding registration consulting companies and brand marketing companies to expand our business. We sincerely wish to establish win-win cooperation with you to create a brilliant future. Welcome to YC Agro.

YC Agro Ltd.

We always strive to offer excellent services and qualified products.

28 years' experience in agrochemicals field

325 registrations in target countries

69 countries' market presence

155 ICAMA registrations

20 equivalent technicals in EU

The following generic registrations in EU are in process:

Acetamiprid 20% SG

Diflufenican 500 g/l SC

Nicosulfuron 40 g/l SC

Azoxystrobin 250 g/l SC

Fluroxypyr-meptyl 200 g/l EC

Trinexapac-ethyl 250 g/l EC

We are sincerely seeking the cooperation with EU clients, and we wish to establish win-win cooperation with you to create a brilliant future.

Equivalent Technicals in EU:

Approved

Acetamiprid

Clomazone

Diflufenican

Fluroxypyr-meptyl

Metsulfuron-methyl

Propyzamide

Thifensulfuron-methyl

Azoxystrobin

Clopyralid

Epoxiconazole

Mesotrione

Nicosulfuron

Quizalofop-P-ethyl

Trinexapac-ethyl

Chlorothalonil

Dicamba

Fluazinam

Metribuzin

Picloram

Tebuconazole

In process

Clethodim

Fenoxaprop-P-ethyl

Mesosulfuron-methyl

Tribenuron-methyl

Cyprodinil

Flufenacet

Iodosulfuron-methyl sodium

Triflusulfuron-methyl

Ethephon

Mepiquat chloride

Rimsulfuron
